Task K: Making Inferences from Observations

Read the statements below. Tell all the ways you would know each statement below is true. The first one is done for you.

1. It's Saturday morning.

Cartoons are on television.

The newspaper has "Saturday" on it.

School is closed.

2. It's going to rain.

3. A store is open.

4. You need a haircut.

5. A plant needs water.

6. The oven is on.

7. The mail carrier has come to your house.

8. The refrigerator is broken.

*I.E.P. Goal: When presented with possible conclusions, the client will give possible observations supporting those conclusions, with 90% or greater accuracy.*

Social Language
