

# Camp-Out

Spatial Concepts

**Directions:** Give the child a copy of the picture scene on page 35, and the pictures below. Have the child color and cut out all of the pictures.

**Activity:** Ask the child to listen carefully. Read the following directions aloud. Put a ✓ in each box to easily track the child's progress.

- Find the chair and the thermos. Glue the chair next to the tent and the thermos near the fire.
- Find the bench and the smoke. Glue the bench beside the table and the smoke over the fire.
- Find the lantern and the bike. Glue the lantern on the table and the bike beside the chair.
- Find the hammock and the fishing pole. Glue the hammock between the trees and the fishing pole near the table.
- Find the tent and the bird. Glue the tent next to the table and the bird in a tree.
- Find the cooler and the football. Glue the cooler beside the table and the football beside a tree.

## Additional Activities:

1. How are a tent and a house different?
2. Name something you take camping.
3. What is a lantern used for?
4. What do you do with a hammock?
5. How do you catch a fish?

Give a copy of the pictures below to the child.

**Camp-Out**  
**Directions:** Color and cut out all of the pictures on page 34. Follow the directions to glue those pictures on this picture scene.
